

If you own a Mac, you should execute a special command **before connecting the props to your Mac for the first time**. That should be done to avoid creating DS_Store files on the props' flash, which may interfere with the proper functioning of the devices!

Video instructions with all steps here: <https://youtu.be/4R4Y4bct1JY>

Step 1. Open the Terminal

So open the Terminal do the following:

- In the Spotlight search bar type the word *Terminal* and press "Enter"

or

- Launch *Terminal* in Finder.

or

- Find *Terminal* among the Utilities and launch it. (Launchpad -> folder "other" -> *Terminal*)

Step 2.

Find in the top bar "shell"

then

New Command

Step 3. Type the following command in the terminal window:

```
defaults write com.apple.desktopservicesDSDontWriteNetworkStores -bool true
```

Execute command.

Wait for a response from the terminal "**process completed**" (this may take about 5 minutes)

If you want to restore the initial state, you can return the previous setting through the terminal using the following command:

```
defaults delete com.apple.desktopservices DSDontWriteNetworkStores
```
